BBOS 10 Home

Both devices have the reference-style Hub / page navigation / Camera bar. Titan 2 also retains Phone and Command shortcuts.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

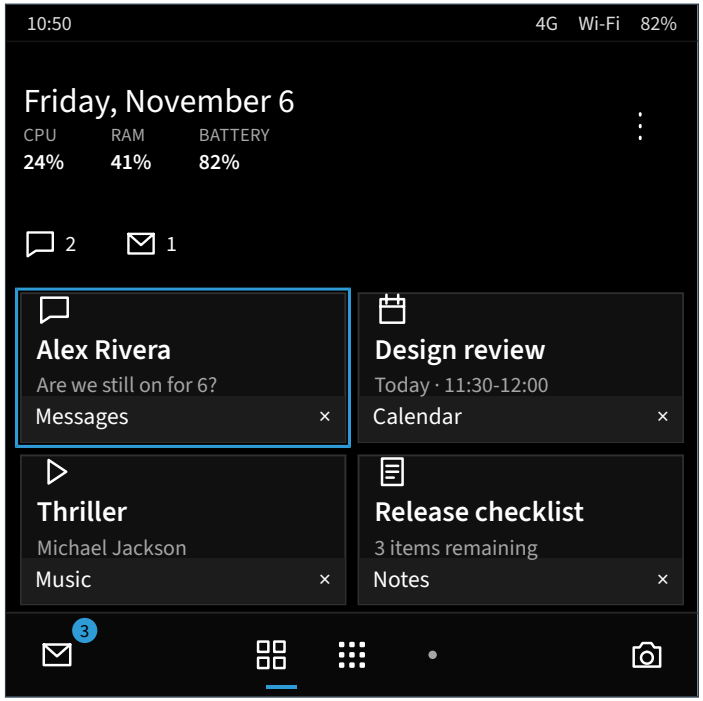

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

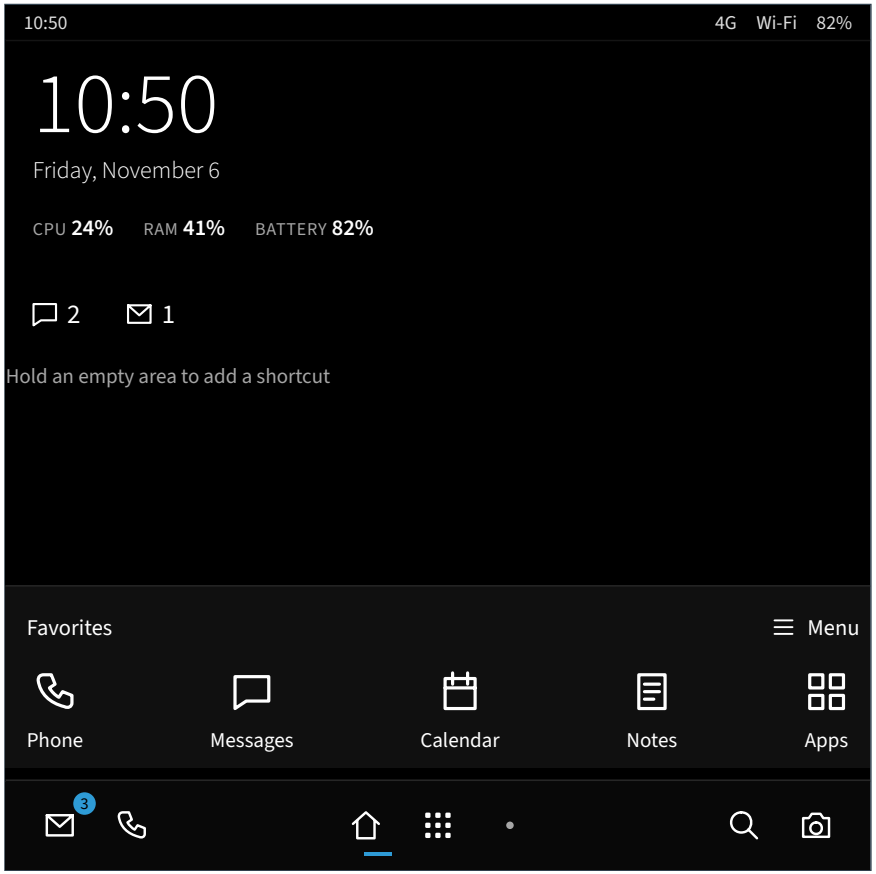

Eight app frames maximum; the four shown are synthetic sample content. No automatic screenshots implied.

BBOS 7 Home

BB7 retains its clock and Favorites tray, with the same reference-style lower bar as Active Frames on both devices.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

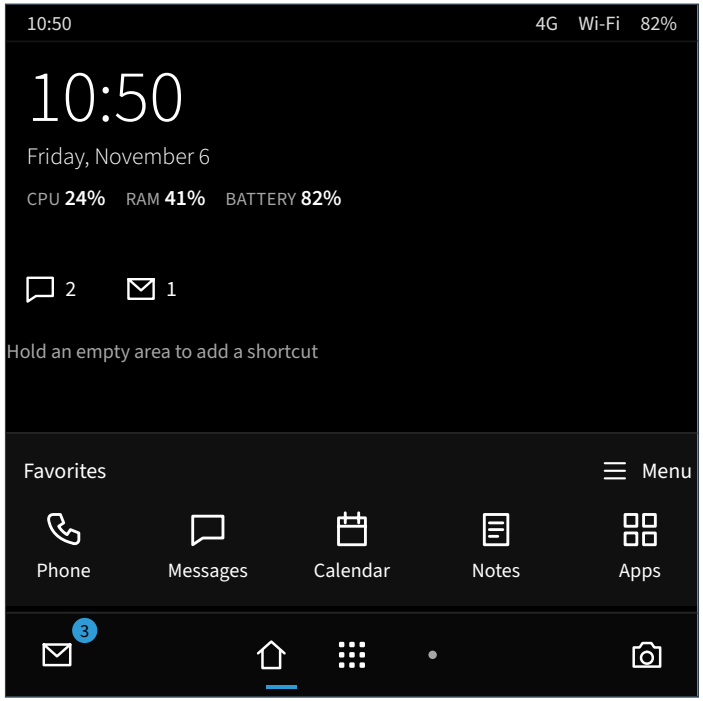

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

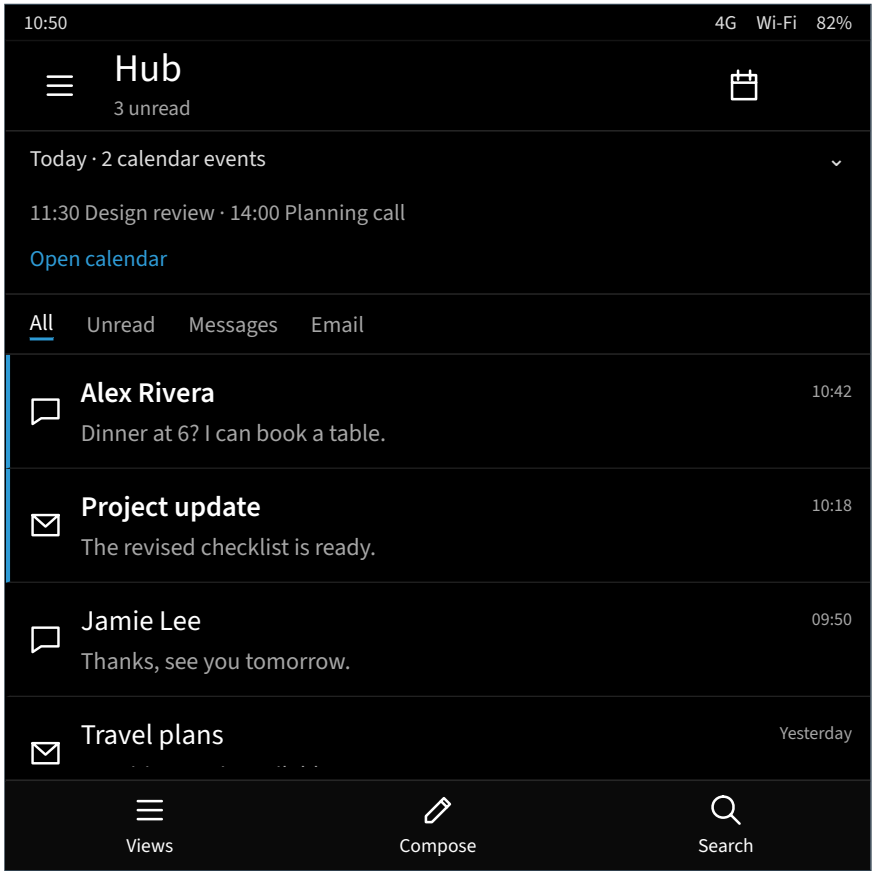

Stats are labels in the BlackBerry theme. Existing dial choices remain configurable.

Hub

Rightward swipe opens Hub Settings. Select one message to reveal the action panel on the right.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

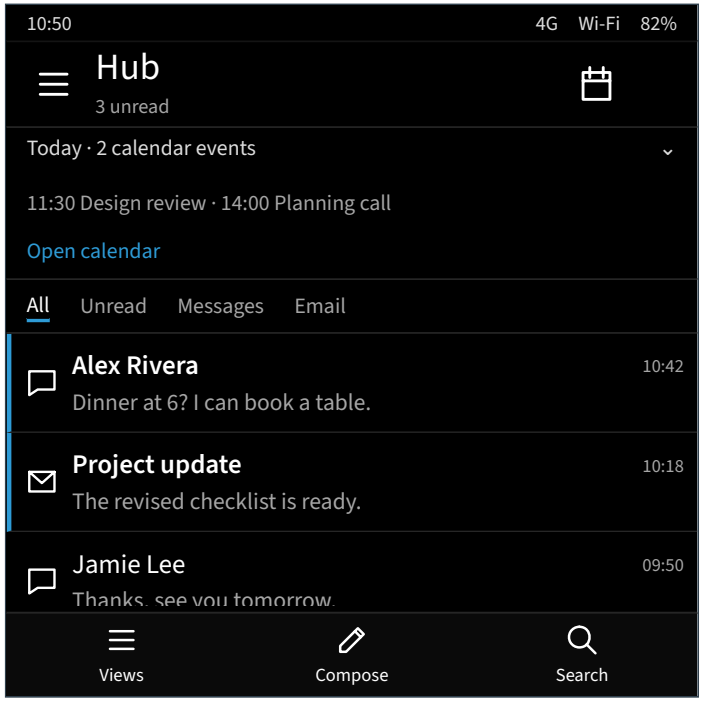

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

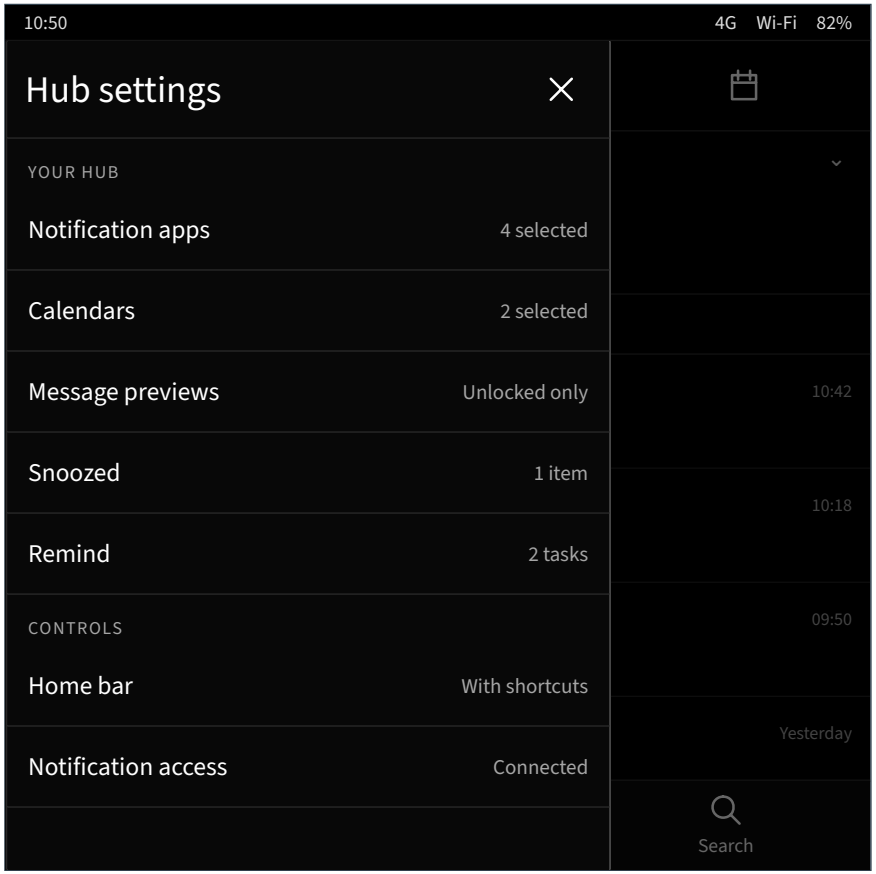

Calendar can expand above the flat conversation rows. Counts and examples are fictional.

Hub Settings · rightward swipe

Settings slide in from the left while part of Hub stays visible. Back or a leftward swipe closes the panel.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

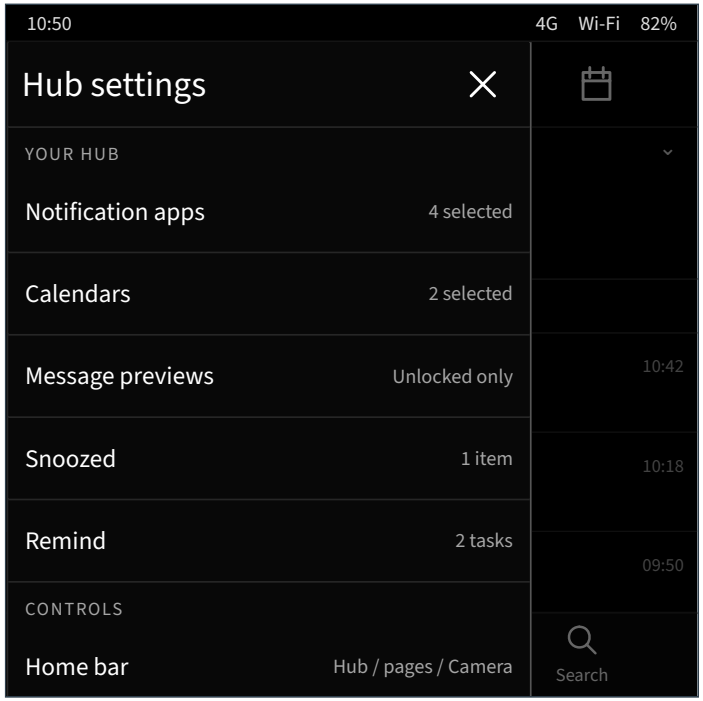

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

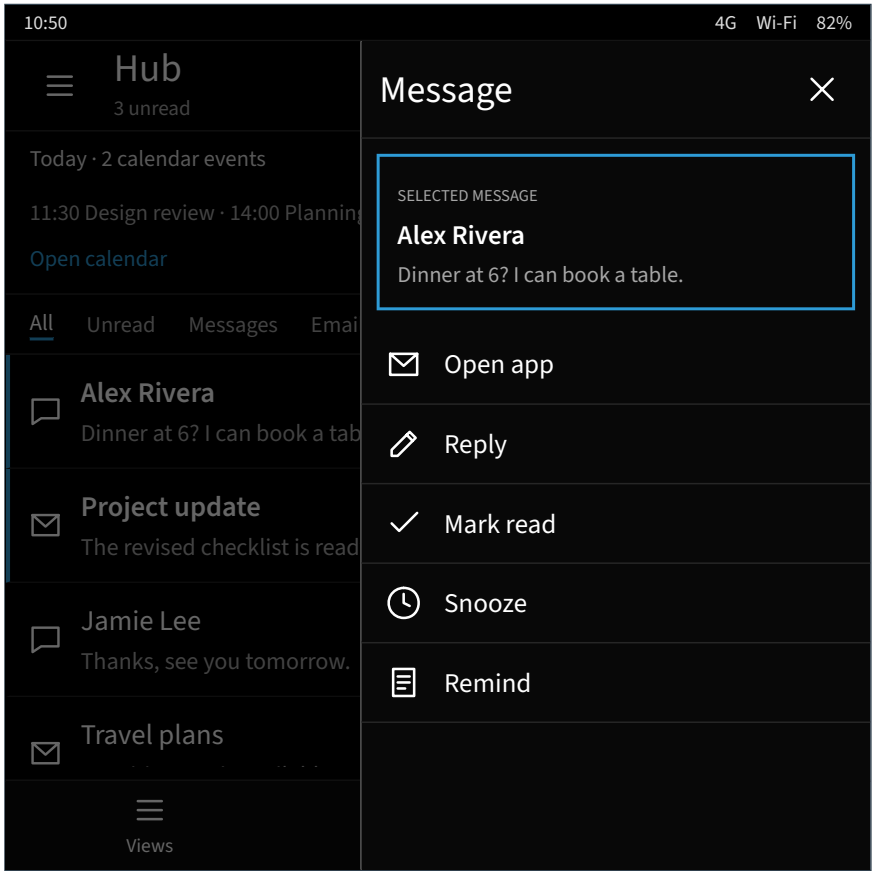

Settings does not become another top-level app page; controls remain accessible with touch or keys.

Selected message · right actions

A single selected message reveals actions on the right. Focus is outlined; opening the panel does not mark the message read.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

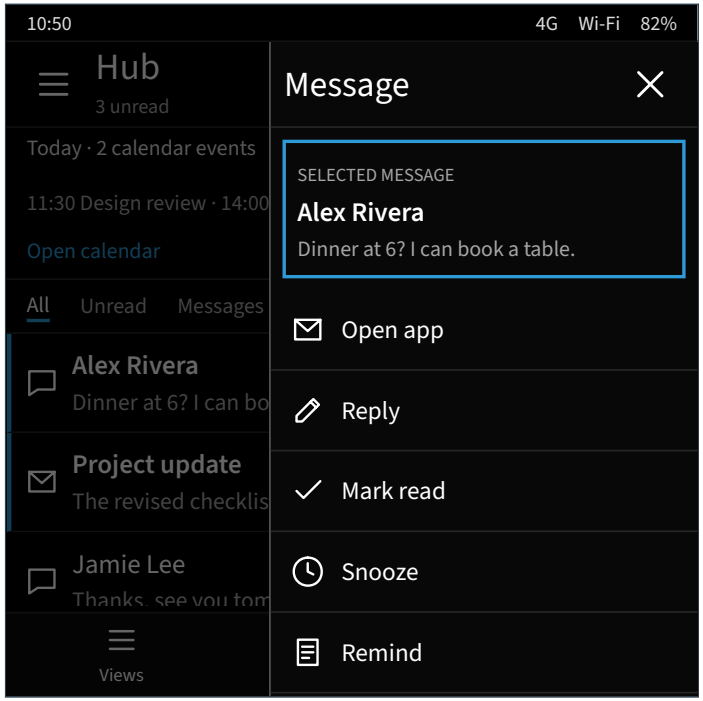

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

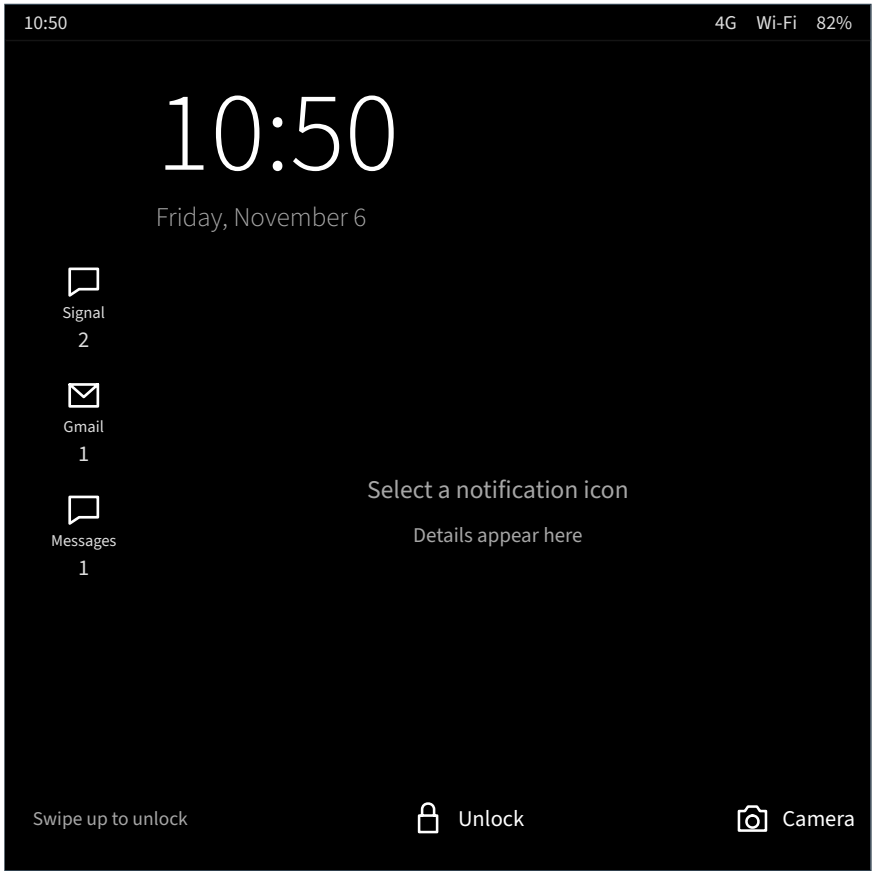

Only Open app, supported Reply, Mark read, Snooze and Remind are shown. No promise to delete underlying email.

Lock screen

Clock and vertical per-app notification icons. Select an icon to reveal only that app's notifications beside the rail.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

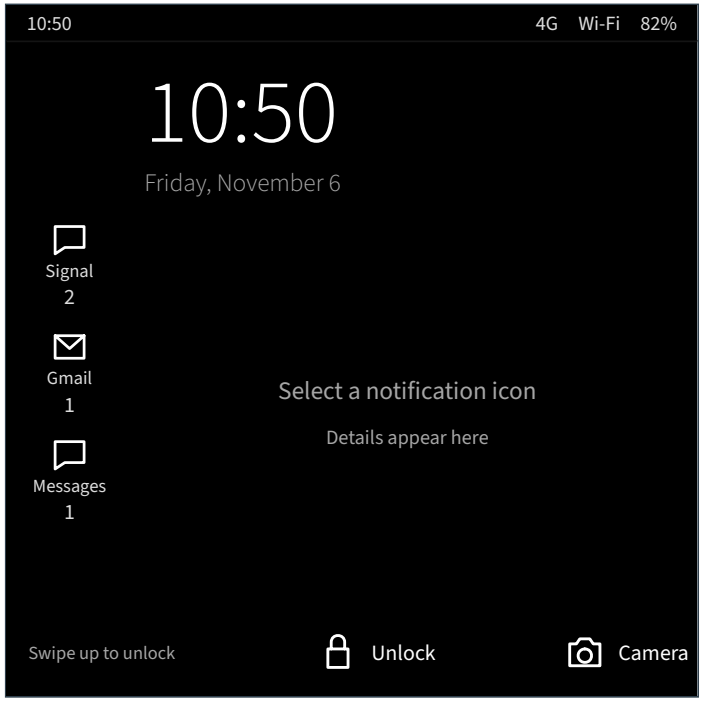

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

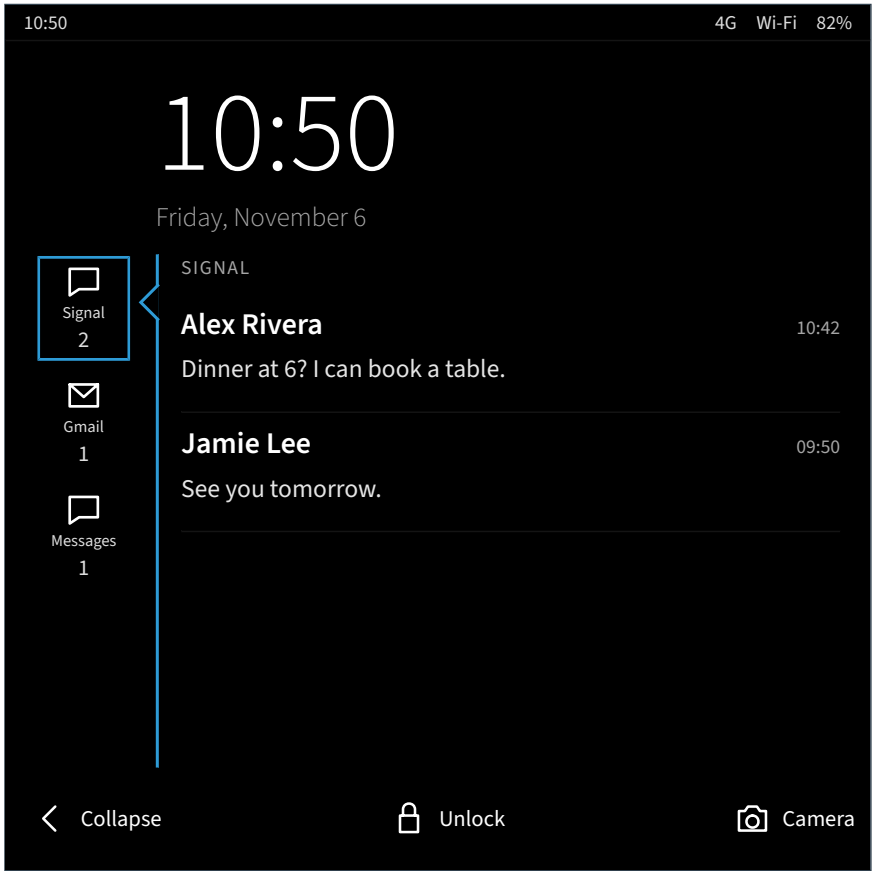

Android authentication remains authoritative. A launcher cover cannot replace SystemUI keyguard.

Lock screen · Glance / Peek

Signal is selected: its details appear beside the icon rail, with a blue selection bracket. Tap another app icon to switch sources.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

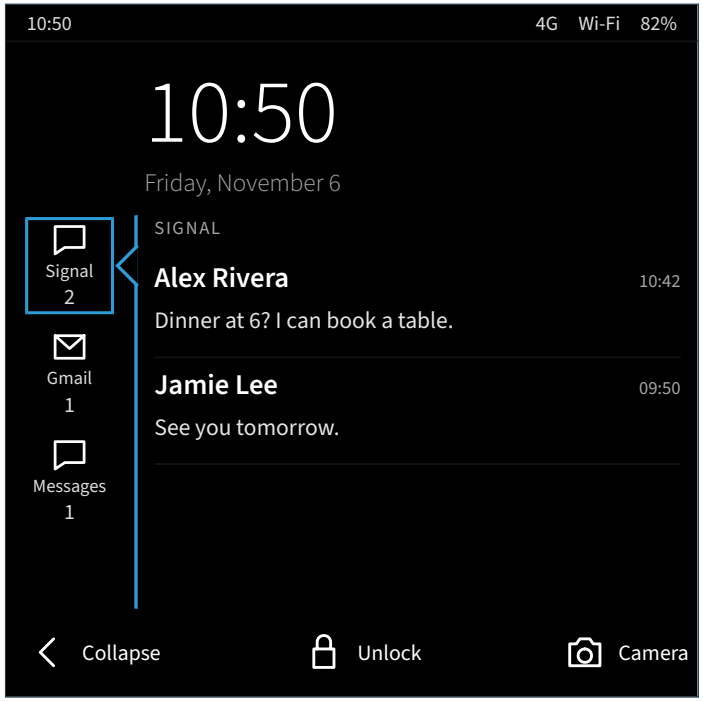

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

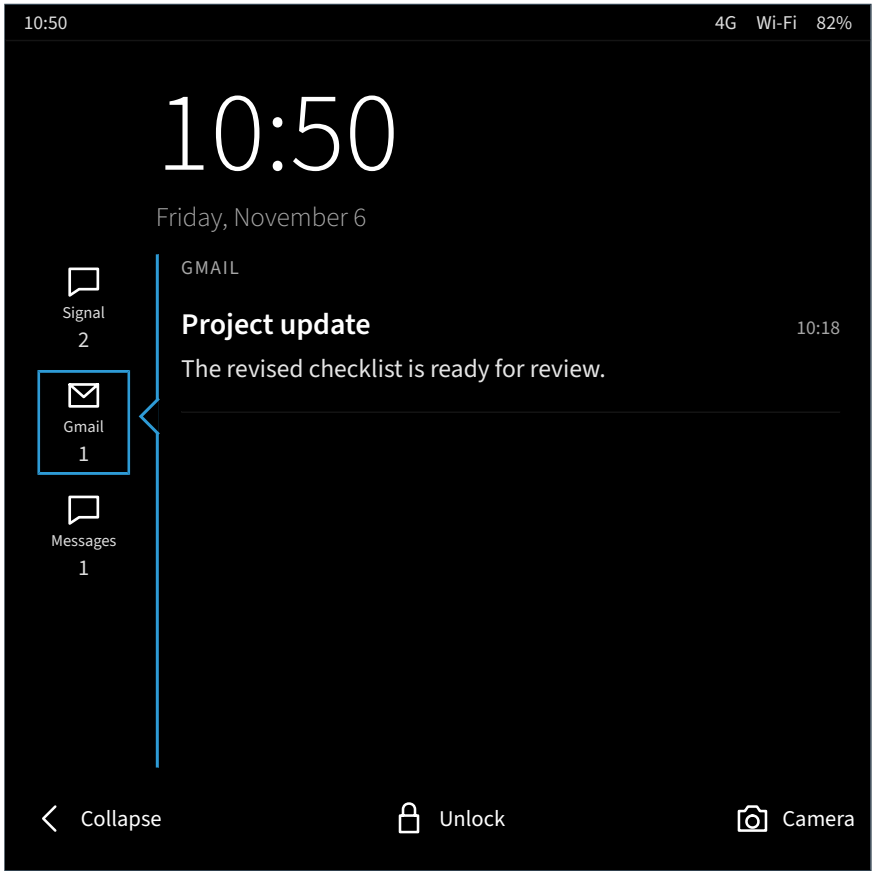

Shown with notification previews allowed. Hidden/private content uses the redacted state; tapping never bypasses Android authentication.

Lock Peek · Gmail selected

Selecting Gmail moves the indicator and replaces the detail region with Gmail notifications only.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

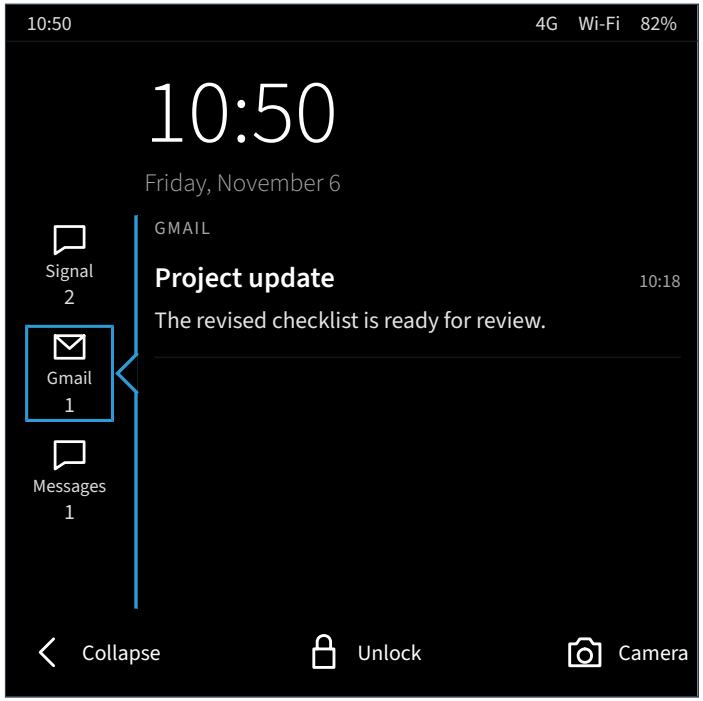

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

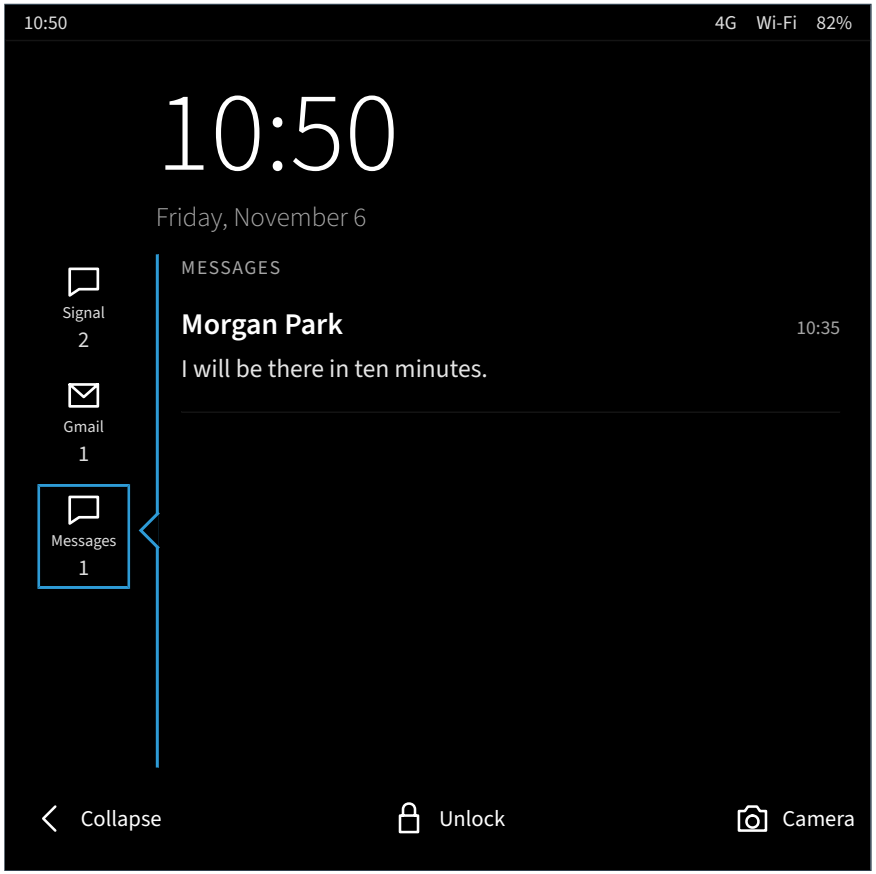

Illustrative content is shown only when the applicable notification and lock-screen privacy rules allow previews.

Lock Peek · Messages selected

Selecting Messages shows its own notification, not the Signal or Gmail previews.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

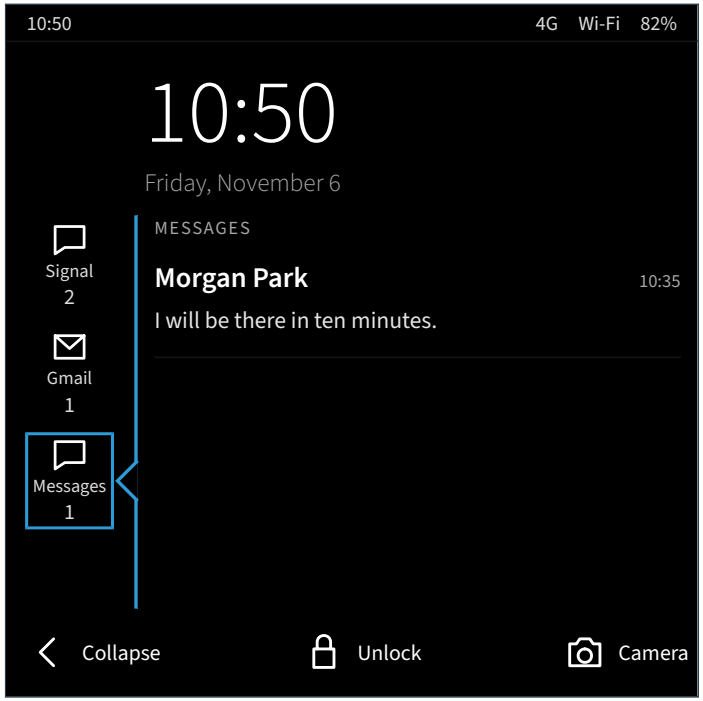

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

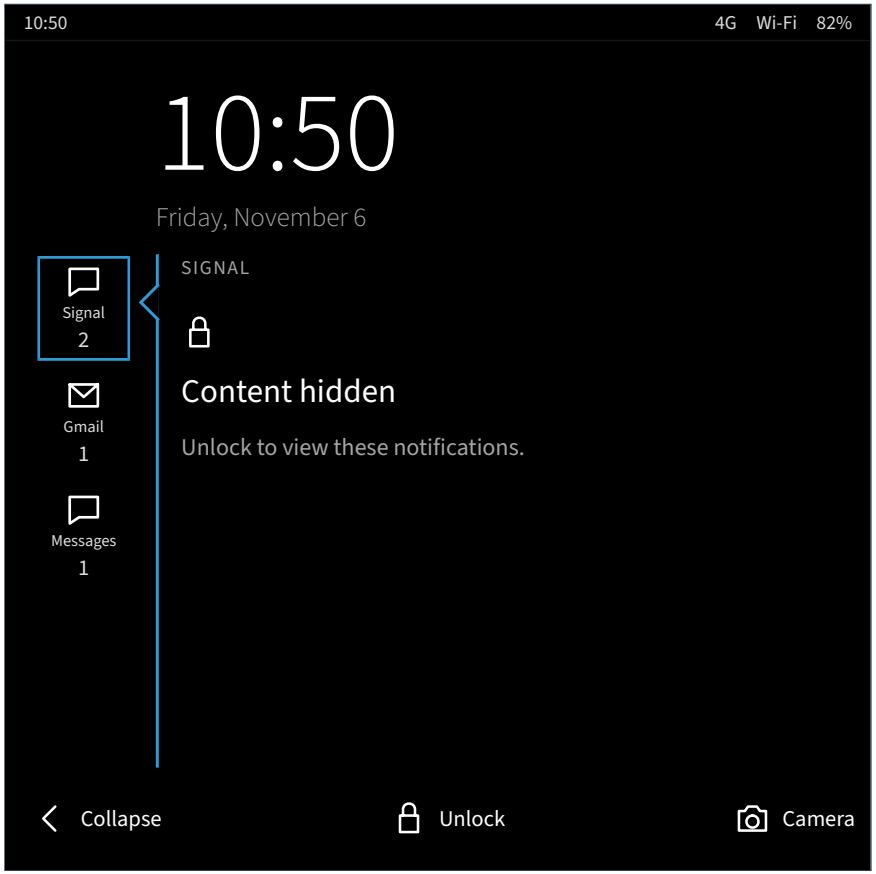

Selection changes the viewed source; it does not mark messages read or open the underlying app.

Lock Peek · hidden content

The same selection layout works when content previews are hidden: the app count remains, while private details are redacted.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

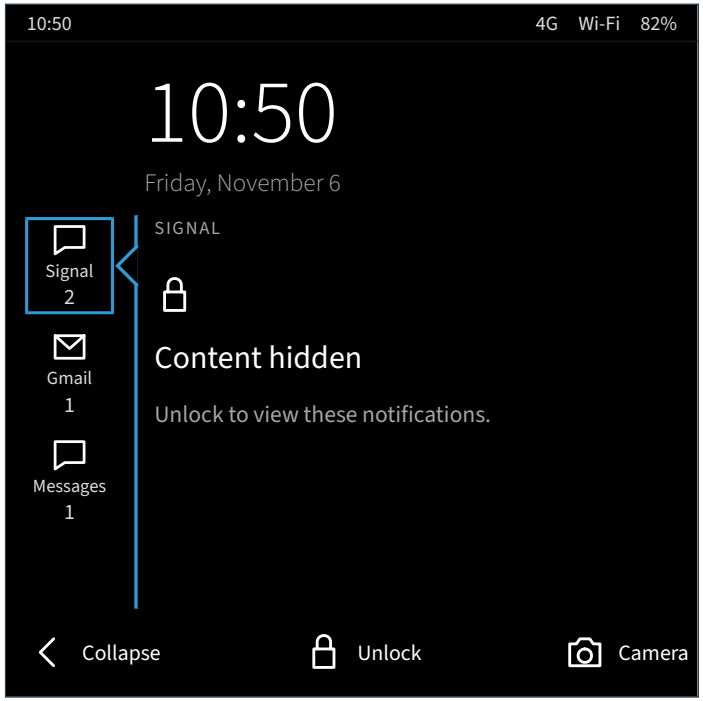

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

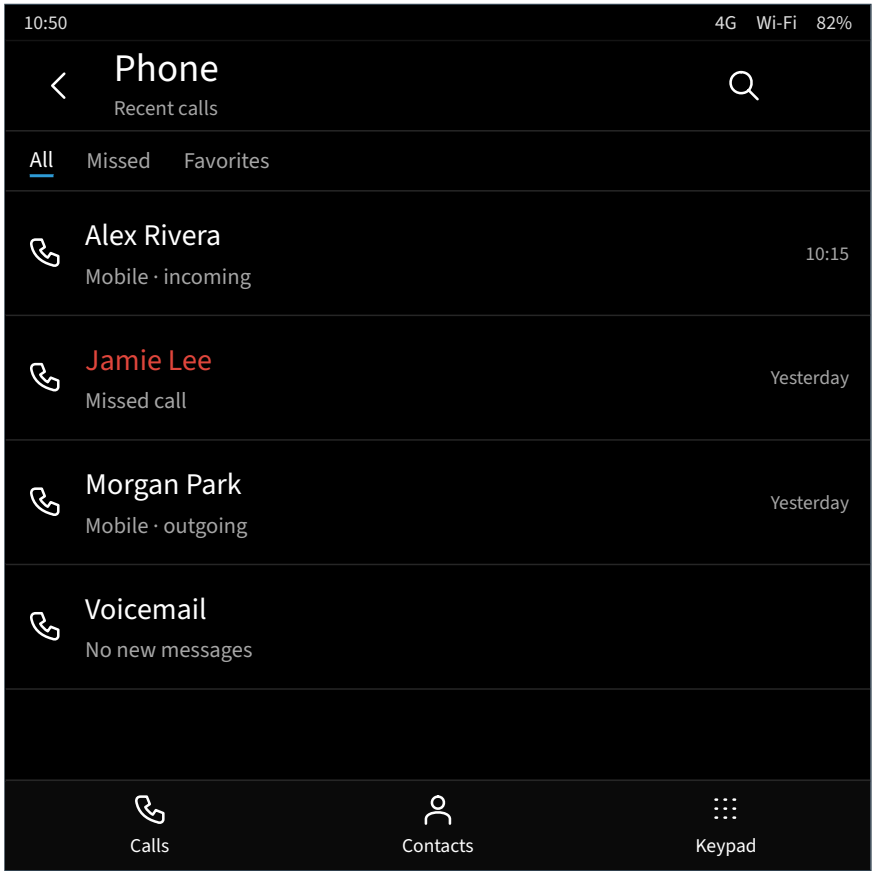

Opening, replying or revealing protected content still requires the appropriate Android unlock.

Phone · recent calls

Titan 2 has an on-screen Keypad action. Q25 Call / End roles complement the same screen-level actions.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

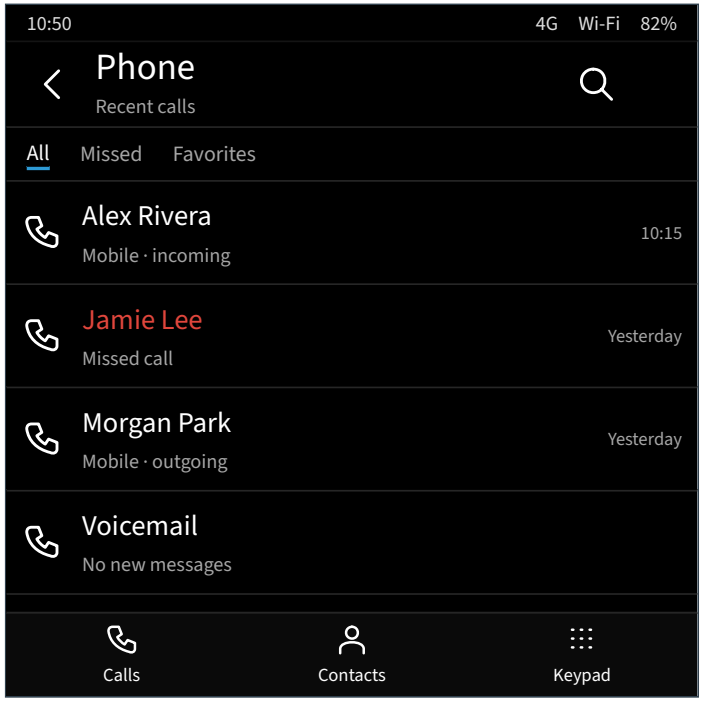

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

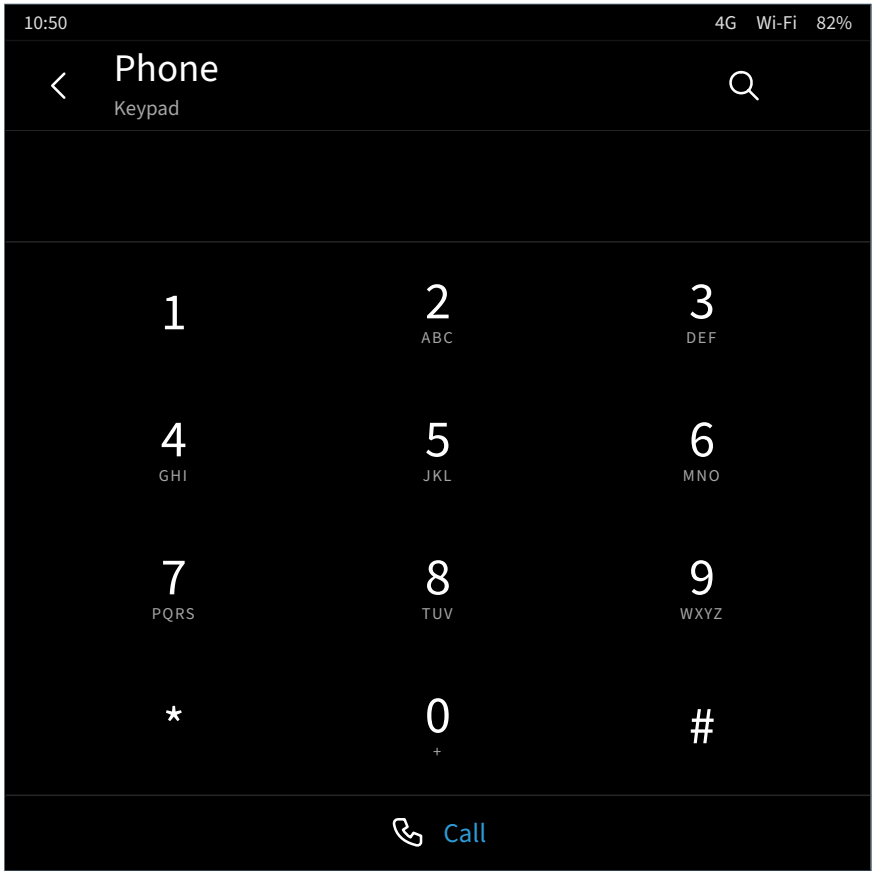

Future TenSeven-owned Phone UI: not a recolour of Google Phone. Real call history and in-call controls need public Android role/API integration.

Phone · keypad

A full keypad remains available for touch on both phones. Q25 hardware keys supplement it; no scan codes are guessed.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

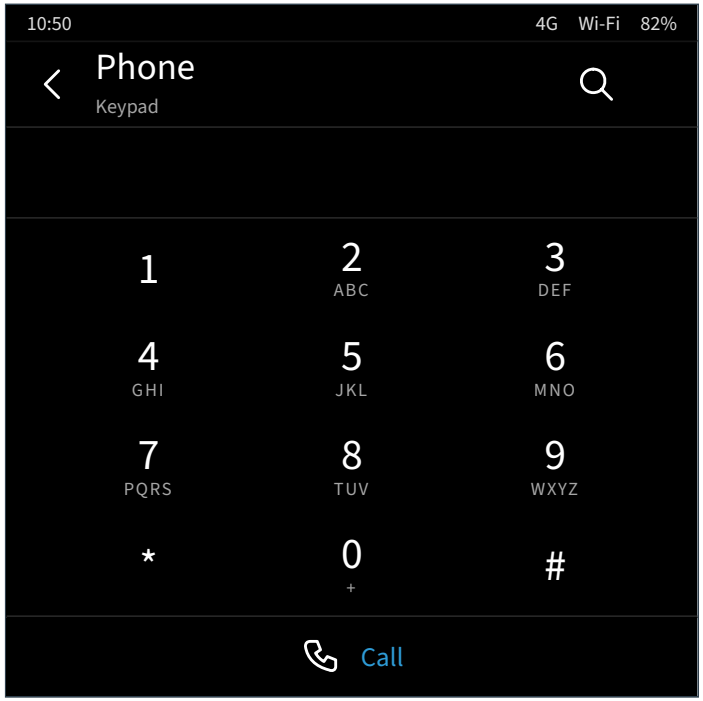

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

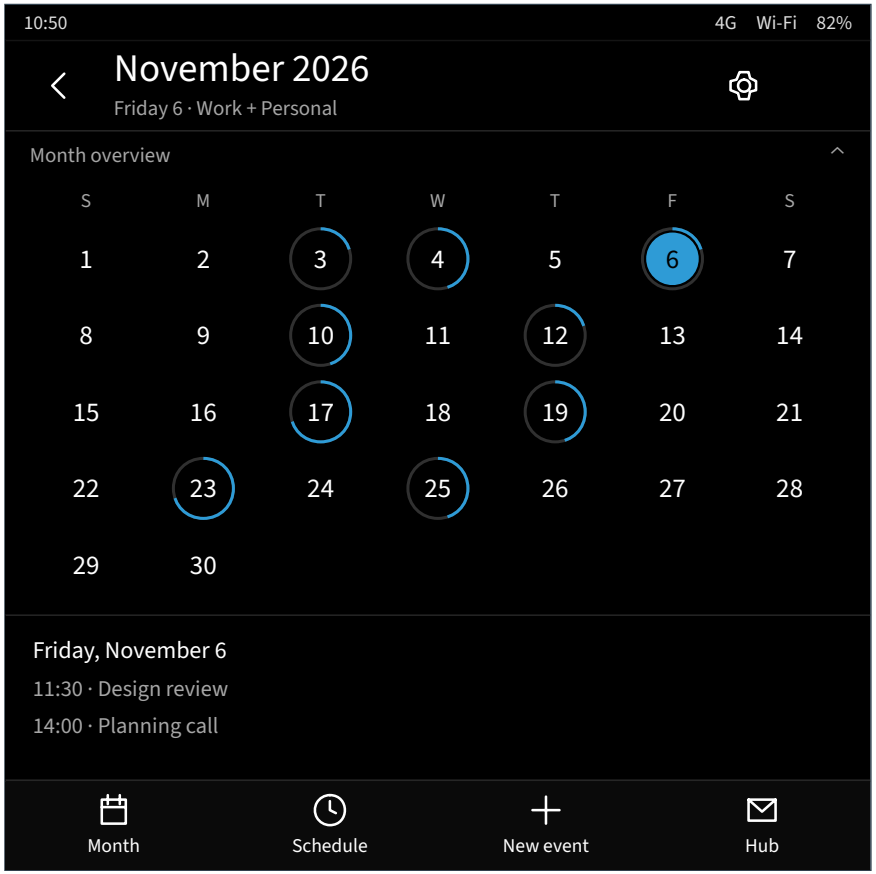

The preview does not place calls. A real implementation must preserve emergency calling and Android dialer-role rules.

Calendar · busy month

The month header uses blue busy arcs and a selected-day marker inspired by the supplied Calendar reference.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

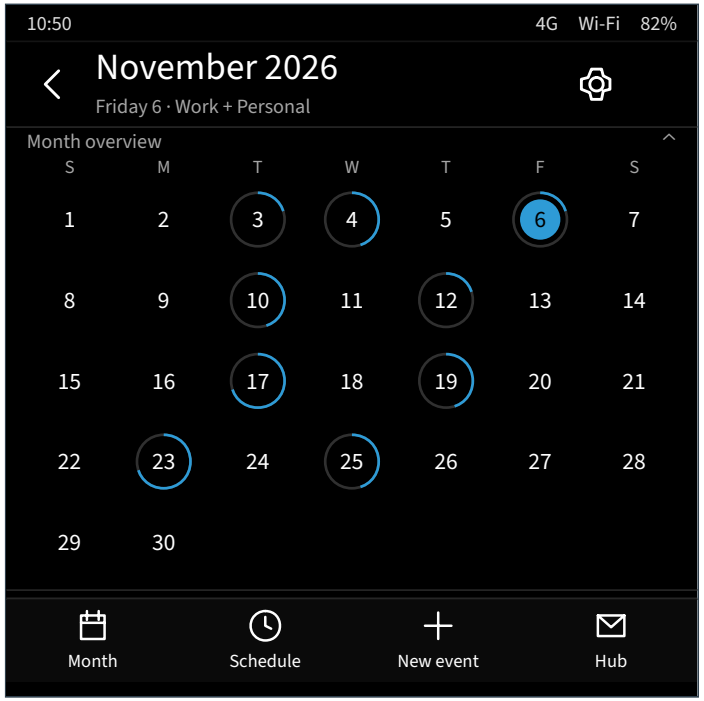

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

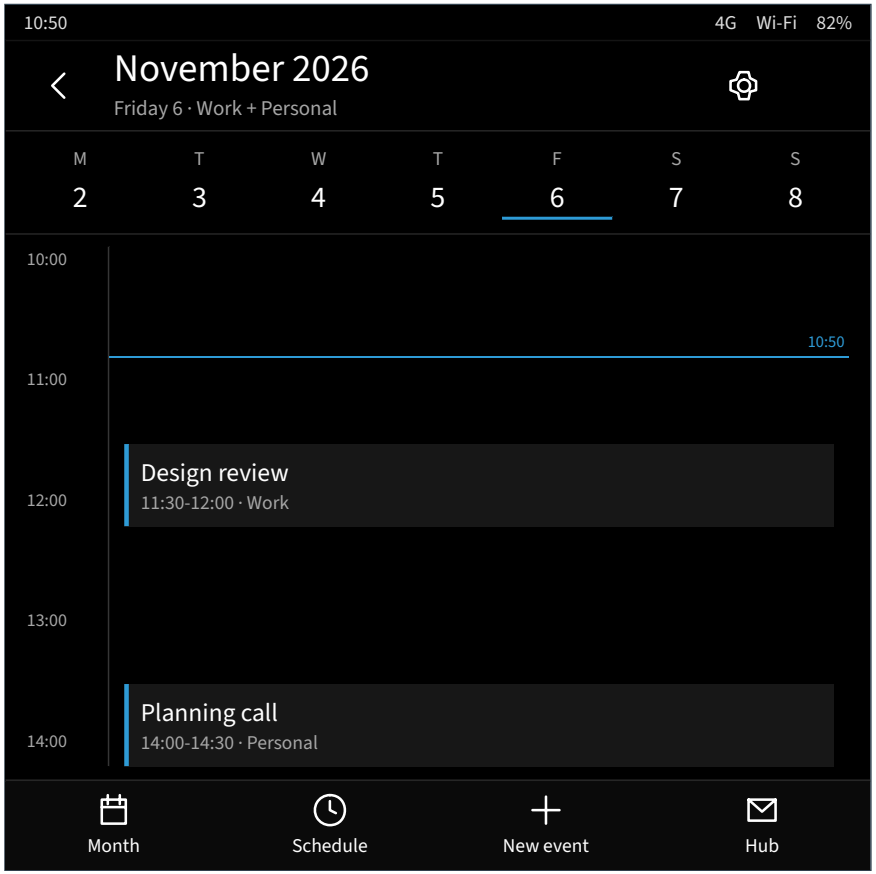

Arcs describe occupied time in selected calendars, not event count. Calendar identity is carried by text, not extra accent colours.

Calendar · day / week schedule

The month collapses to a seven-day strip so appointments stay legible, especially on Q25.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

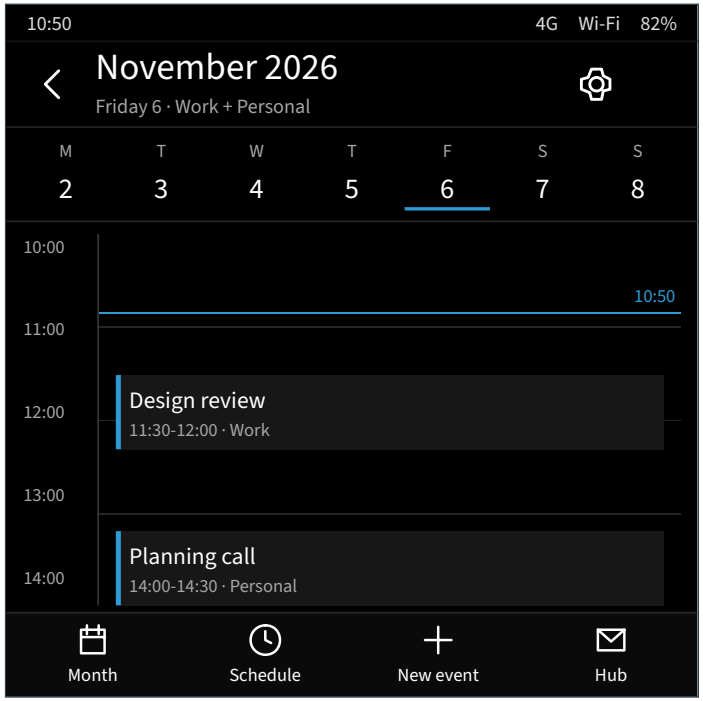

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

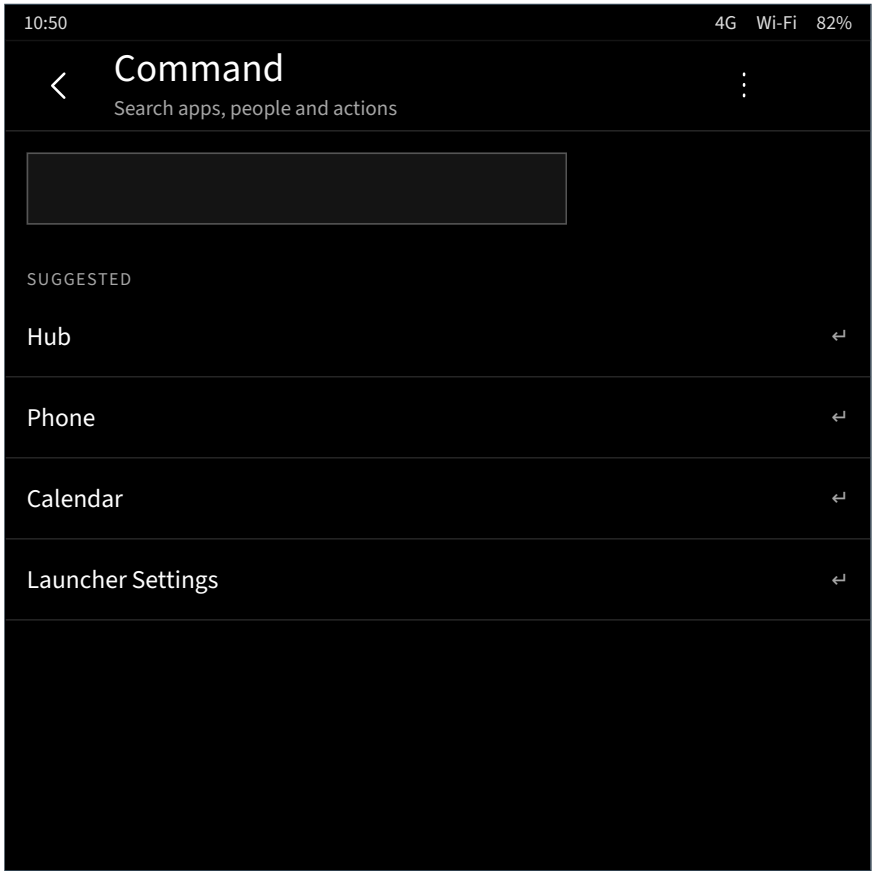

All-day events need a separate band. Permission denial, empty calendars and overlapping events are implementation acceptance states.

Command · navigation sample

Alt+Space on Titan 2 opens Command. Q25 keeps Command accessible from its menu and configured shortcut.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

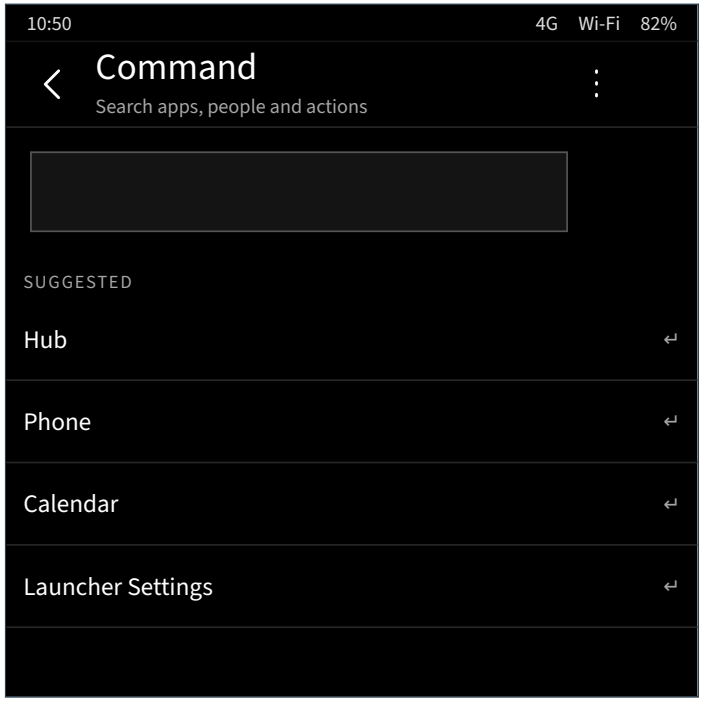

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

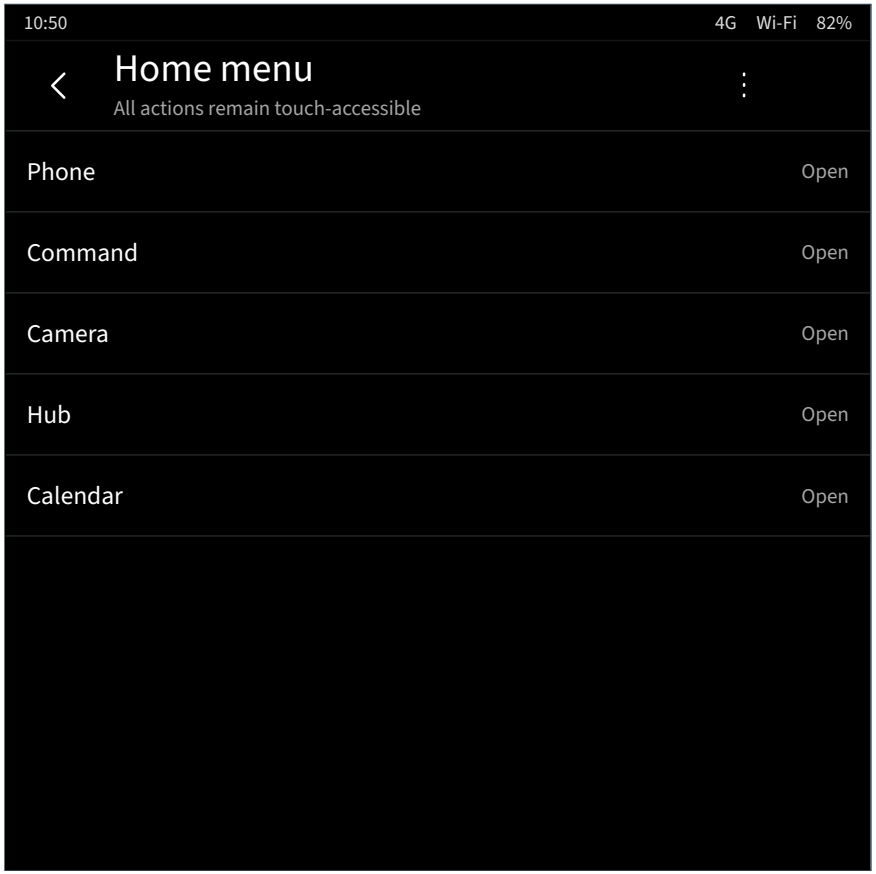

App-owned shortcuts work within TenSeven; system-wide Home / Menu / End interception is not assumed.

Home menu · touch fallback

A visible menu preserves Phone, Command and Camera access alongside the Q25 compact Home bar.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

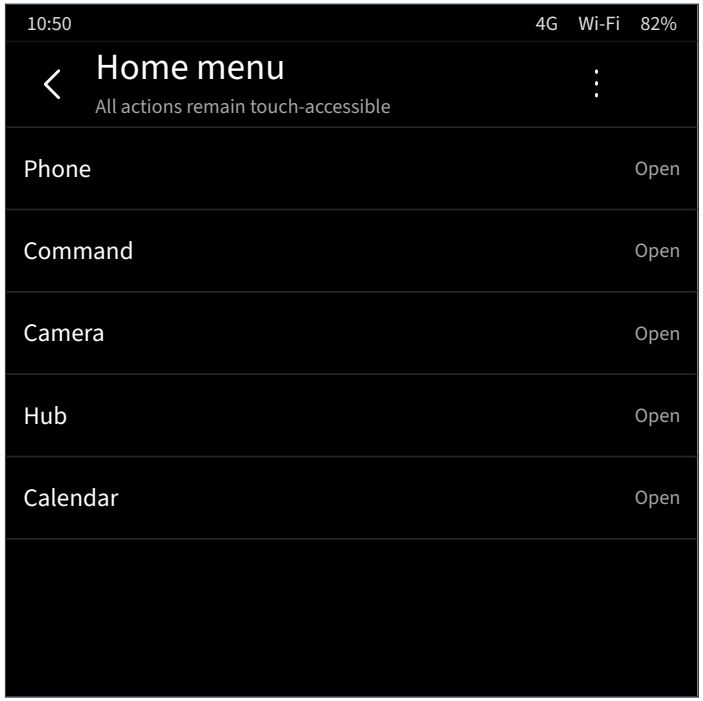

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

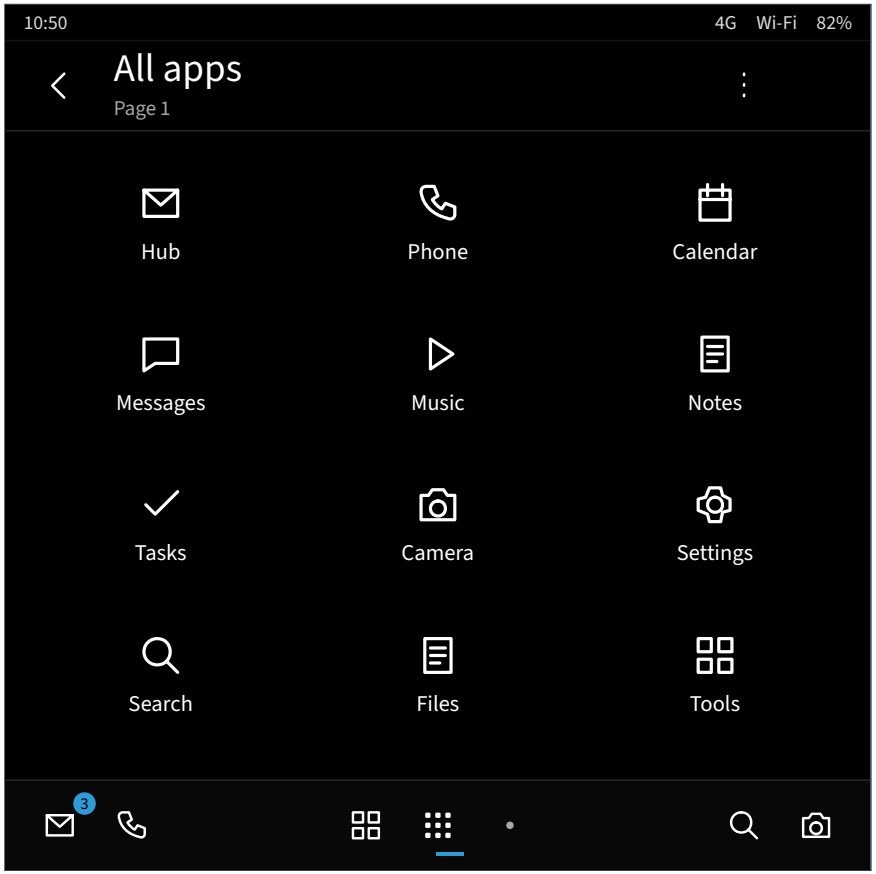

Hardware shortcuts supplement these actions; they never make a function available only through a physical key.

App page · lower-bar destination

The center grid control opens the app page. The lower bar remains the same across Home, frames and app pages.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

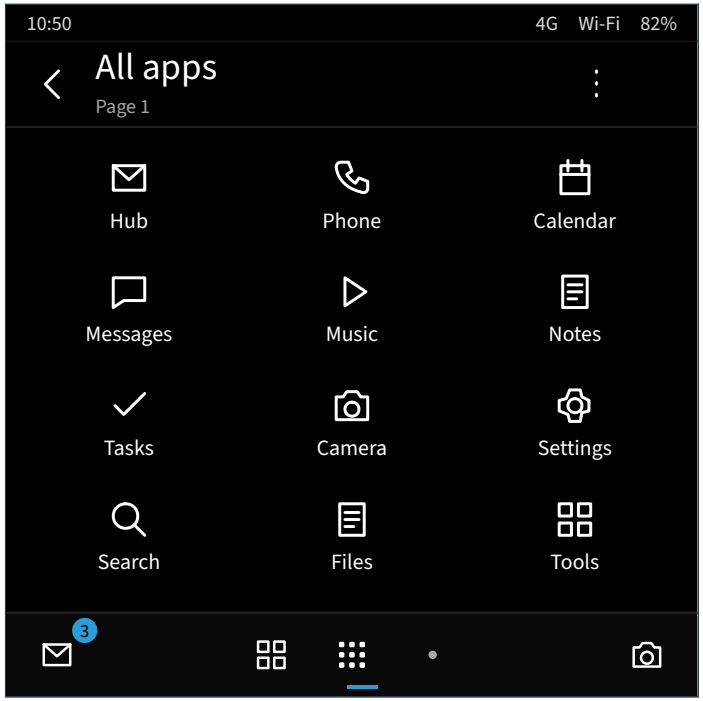

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

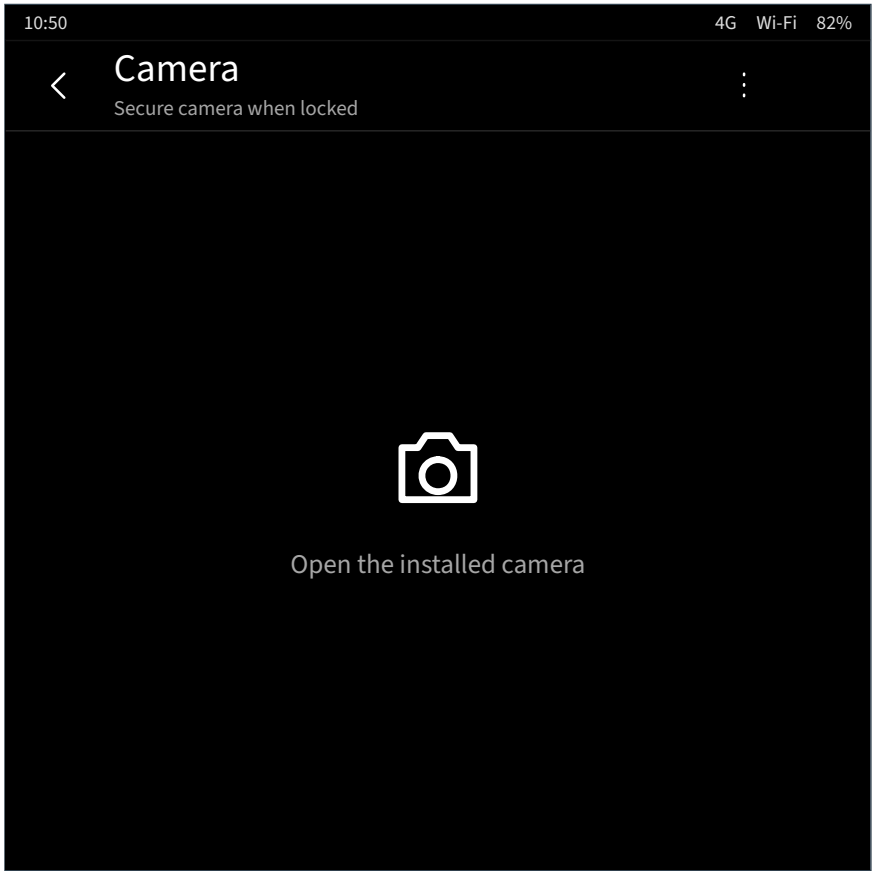

This is sample navigation content; installed apps and pages are derived from the real inventory.

Camera · handoff sample

The camera action hands off to the installed camera rather than inventing a second camera app.

Unihertz Titan 2

~576 dp canvas · reference bar + optional shortcuts

QWERTY | Alt+Space · Command | Alt+Enter · Menu

No dedicated Call / Menu / Back / End key assumed.

Zinwa Q25

~411 dp canvas · reference bar + hardware keys

Call | Menu role | Trackpad | Back | End

Logical hardware roles, not asserted scan-code mappings. Context actions remain on screen.

On the real lock screen, only Android secure-camera behavior is allowed.
